https://seannooh.github.io/seanoh/

Entry-level Software Engineer with professional experience developing responsive websites, integrating REST APIs, and troubleshooting data workflows across CRM and marketing systems. Hands-on experience with JavaScript, React, HTML, CSS, Node.js, Express.js, SQL, WordPress, and API integrations. Experienced in building production websites, debugging web applications, and developing full-stack projects.

Education

- **Bachelor of Science in Computer Science (*cum laude*), University of Redlands** **Sep 2021 - Apr 2025**
  - Minor: Mathematics
  - Cumulative GPA: **3.7 / 4.0**
  - Honors & Awards:
    - Dean's List (Fall 2022, Spring 2023, Spring 2024, Fall 2024, Spring 2025)
    - Lawrence Harvill Award (2025): Most Outstanding Senior Computer Science Major

Technologies, Languages, and Skills

- **Languages:** Java, JavaScript (ES6+), HTML5, CSS3, Kotlin, Python, PHP
- **Frontend:** React, Responsive Web Development, DOM Manipulation
- **Backend & APIs:** Node.js, Express.js, REST APIs, JSON, Webhooks
- **Databases:** MySQL, SQLite
- **Development Tools:** Git, GitHub, npm, yarn, Visual Studio Code, Chrome DevTools
- **Platforms & Integrations:** WordPress, Zapier, CRM Integrations, Google Ads, Meta

Work Experience

Web & Marketing Systems Specialist **Franchise Focused Marketing** **Dec 2025 – Present**
Santa Ana, CA

- Develop and maintain responsive production websites and landing pages using HTML, CSS, and JavaScript, including 20+ landing pages for different fitness and boutique brands.
- Maintain 5+ client and internal websites, implementing frontend updates, new functionality, responsive layouts, and performance improvements.
- Customize WordPress websites using custom and child themes, including PHP functions and JavaScript enhancements for animations and interactive features.
- Integrate lead-generation forms with client CRM and internal systems using REST APIs, GET/POST requests, JSON payloads, webhooks, and Zapier workflows.
- Build and configure automated lead-routing workflows using Zapier webhooks and custom steps to send, validate, and synchronize lead data across CRMs, internal systems, and Google Sheets.
- Troubleshoot integration issues by inspecting API requests and responses, HTTP status codes, JSON data, browser console errors, and page behavior using browser developer tools.
- Configure and troubleshoot Google Ads conversion tracking, Google Tag implementations, Meta Pixel and dataset events, and Facebook Lead Form integrations.
- Improve website performance and user experience through frontend optimizations, including deferred video loading and responsive design improvements.
- Collaborate directly with clients, internal employees, and the Director of Tech Services to diagnose and resolve technical issues involving websites, lead routing, CRM integrations, and tracking systems.

Projects

https://github.com/seannooh

- **Food Nutrition Tracking Web Application**
  - React, Node.js, Express.js, SQLite
  - Engineered a full-stack application allowing users to log and track their daily calories.
  - Designed and implemented a responsive frontend with React hooks and state management.
  - Built RESTful APIs with Node.js/Express.js to handle user authentication and calorie data storage.
  - Applied a relational database schema using SQLite to ensure data integrity and scalability.

- **Movie Search App (https://seannooh.github.io/moviesearchapp/)**
  - Developed a React web application that integrates with the OMDb API to provide real-time movie data.
  - Implemented search functionality and dynamic rendering to improve user experience.
  - Optimized API requests using debouncing techniques for faster data retrieval and improved performance.

- **NFL Team Builder App (https://seannooh.github.io/nfl-team-app/)**
  - Created an interactive React frontend inspired by Snapchat/TikTok filters for randomized team-building.
  - Leveraged state management and dynamic UI rendering to ensure smooth user interaction.
  - Applied modern frontend development practices (component-based design, reusable UI elements).

Volunteer Experience

Student Volunteer | **Camp Ronald McDonald for Good Times** | **Apr 2021 – Apr 2024**
Mountain Center, CA

- Volunteered each year to set up the campgrounds for children with cancer and their families.
- Demonstrated team collaboration with groups involving construction, groundskeeping, and maintenance work.

Extracurriculars

University of Redlands Student Athlete | **NCAA Division III Football** | **Aug 2021 – Nov 2024**
Redlands, CA

- Competed as a student-athlete for 4 consecutive seasons, balancing 20+ hours/week of training and games while maintaining a 3.7 GPA.
- Earned Scholar-Athlete honors for academic performance while competing in NCAA Division III football, demonstrating discipline, resilience, and time management.
